

Article 9: Existing Plastic Pollution

Thank you very much madame co-Chair,

With regard to para 1.b concerning the mitigation measure, we would like to add other relevant activity rather than clean-up, which is paramount important as part of mitigation measures for local communities in the affected and surrounding which is **public awareness**.

So, we propose *“Take mitigation and remediation measures, including public awareness and clean-up activities.*

Thank you.

Thank you very much madame Co-Chair for giving us a second opportunity,

With regard to para 3 concerning “the activities pursuant to para 1 and 2”, we would like to propose addition of other relevant and related stakeholders “**scientist and researcher**” that we believe would positively contribute to the activity, such as to provide scientific, socio-economic and policy evidence.

In doing so, we propose the addition of scientist and researcher to have the para read as follow: *Each Party is encouraged to promote engagement of local communities, civil society, as well as the private sector, in activities pursuant to paragraphs 1 and 2.*

Thank you.
