

AGN INTERVENTIONS ON CG1

Article 2 - Definitions

Delivered by DRC on 5th August 2025

We want definitions that fit the context of plastic treaty. This article can be discussed now or towards the end of the process when the understanding of what we want will be clear. (add by co-chair CG1/AGN) List is not exhaustive and should be expanded depending on the final text.

1. Human Health

2. Marine Environment: A request was made not to limit the scope to the marine environment but to also include aquatic environments. Hence, the proposal of "marine and aquatic environment."
