African Group Statement on Reporting on progress [of implementation]

The group generally agrees that there are segments of this provision a bit dependent on what is agreed in the scope and Part I.

Thus the Africa Group is in favor of option 1. And in that Option we support Para1, Para 3, Para 4 is also supported by the group where it clearly provides the responsibilities of the governing body with respect to determining the modality and the format for reporting

Under Option 2: African Region affirms that each Party should report through the secretariat within specified timeline and this should be made publicly available.

Therefore, we support OP3 bis
