

Textual proposal of the Republic of Kazakhstan

Non-paper 3 of the Chair of the Committee

Day 2, November 26th, 2024

Article 16, Effectiveness Evaluation and Monitoring

Kazakhstan suggests making the following adjustments to Article 16 «Effectiveness Evaluation and Monitoring»:

Exclude the words «and other information» from item 4 (c), so it reads as follows: «Reports provided to the Conference of the Parties pursuant to paragraph 2».

For item 4 (g), we suggest the following revision «Other [open] information the Conference of the Parties deems relevant.»

We consider it important to retain item 4 (d) on the «best available scientific and technical knowledge» and to include the following information in the instrument evaluation.

Kazakhstan proposes adding the reference to the Basel, Rotterdam and Stockholm Conventions to item 4 (f), revising it to state: «Relevant information and recommendations provided by any subsidiary body established by the Conference of the Parties and relevant reports from multilateral environmental agreements and multilateral organizations such as International Labour Organization, International Maritime Organization, World Customs Organization, World Health Organization, and World Trade Organization, **[Basel, Rotterdam and Stockholm Conventions]**; and.»
