

INC-5.2 Proposal of Brazil – CG4 - Preamble

<i>Members of the Committee</i>	Brazil
<i>Date and time of submission</i>	08/08/2025
<i>Article number</i>	Preamble

- Inclusion of a new paragraph between PP1 and PP2 of the Chair's text

Recognizing that sustainable development is crucial to end plastic pollution, as it generates the necessary transformation changes in society that facilitates the implementation of national policies towards waste reduction as well as circular economy approaches,

- Inclusion of "including waste pickers" in the PP3 of the Chair's text, after "medium-sized enterprises" and before "to the collection"

- Inclusion of a new paragraph between PP4 and PP5 of the Chair's text

Underlining the importance of promoting sustainable design of products and materials so that they can be reused, remanufactured or recycled and therefore retained in the economy for as long as possible, along with the resources they are made of, and of minimizing the generation of waste, which can significantly contribute to sustainable production and consumption of plastics,

- Inclusion of "including the capacity constraints faced by developing countries in waste management and the need to address them, including through strengthened means of implementation." at the end of the PP10 of the Chair's text, after "applicable international law"
