

With respect to

ARTICLE 19 Section 1 Subsection A, we wish to provide further clarity by the insertion of text breaks, such that the text will read:

(a) Promote the development and implementation of strategies and programmes to identify and protect populations at risk from emissions and releases, particularly vulnerable populations, and which may include adopting science-based health guidelines relating to the exposure to plastic pollution, in particular microplastics and related issues, [PROPOSED TEXT BREAK]

(b) set targets for their exposure reduction, where appropriate, and public education, with the participation of public health and other involved sectors;

With respect to:

ARTICLE 19 Section 1 Subsection B

We have proposed deletions

Promote the development and implementation of science-based educational and preventive programmes on (occupational) exposure to plastic pollution, (in particular microplastics and related issues); across the life cycle
