

Proposal from Cuba to Article 8 Waste Management

25 Nov 2024

Alt Par 1. Each Party shall take measures to manage plastic waste in a safe and environmentally sound manner, based on national circumstances and capabilities as well as on the efficient and timely delivery of means of implementation for developing parties, especially SDIS and LDC; taking into account the relevant provisions of and guidelines developed by Basel Convention on the control of transboundary movements of hazardous waste and their disposal and in accordance with any additional guidelines that may be adopted by the Conference of the Parties to this Convention.
