

Proposal by the European Union and its 27 Member States to Art. 2 on Definitions

Plastics: *A material consisting of a plastic polymer to which additives or other substances may have been added, and which can function as a main structural ~~or functional~~ component of final products, with the exception of natural polymers that have not been chemically modified.*

Plastic product(s): *~~All physical goods which contain or a product, or a component thereof, that is-are~~ partly or entirely made of any form of plastic.*
