Guatemala supports Brasil propose, considering that the mechanism should be established taking into consideration the especial circumstances of developing country parties and that with predictable, sustainable, adequate, accessible and timely financial resources.

In this sense, Guatemala considers the provision on the option 2 alt, emphasizing the country's position in the recent negotiation meetings that:

As a developing nation, we consider it unfeasible to support the imposition of tariffs that may compromise our economy. We disagree with the establishment of general quotas for the importation, exportation, trade, and production of plastics, as this could have a significantly negative impact on developing economies.

Guatemala is interested in reducing and preventing plastic pollution, but lacks sufficient technical and financial resources to assume the commitments. Additionally, Guatemala seeks inclusion in mechanisms for the provision of financial resources that aim to support the implementation of the instrument for countries with limited internal resources and significant capacity constraints, as established in Part III of the negotiating instrument.

It is reiterated that the above is with the condition that the states must duly validate definitions and annexes and subject to the capacities and circumstances of the countries.

---

**Part III**

1. Financing [mechanism [and resources]]
   
   Alt Title: Financial resources [(and mechanism)]

---

**Provisions on the Brasil Proposal**

**OP2 Alt.** The developed country Parties shall provide new and additional financial resources to enable developing country Parties and Parties with economies in transition to meet the agreed full incremental costs of implementing measures which fulfill their obligations under this instrument. Contributions from other sources, including multilateral organizations, agencies and funds are encouraged to, increase their support, including through finance, capacity-building and technology transfer, for the implementation of this instrument* by developing country Parties. Other Parties may also on a voluntary basis and in accordance with their capabilities provide such financial resources. The implementation of these commitments shall take into account the need for adequacy, predictability, the timely flow of funds and the importance of burden sharing among the contributing Parties.
