INTERVENTION

Part I
5. Scope

Regarding the scope of the instrument, Guatemala suggests starting from Option 3 of the streamed line text presented by co-facilitators that is on the same line with the options 4, 5, 8, 9, 12, and 15 of the original text with the consideration that it should be based on the text approved in resolution 5/14 of the UNEA.

Part I
5. Scope

The scope of the instrument* is to end plastic pollution through a full life-cycle approach, taking into account national circumstances and capabilities through nationally determined action plans reflecting country-driven approaches, while ensuring sufficient flexibility to accommodate the different capacities and circumstances of developing countries especially least developed countries, while still being effective in addressing plastic pollution.
