

ARTICLE 8 PLASTIC WASTE MANAGEMENT

My suggested text is:

[1. Each Party, **as per their national plans and based upon national circumstances and capabilities and relevant national regulations**, shall take measures, **including, where relevant, through a sectoral approach**, to ensure that plastic waste **including abandoned, lost or otherwise discarded fishing gear containing plastic**, is managed in a **safe** and environmentally sound manner, taking into account the waste hierarchy and relevant guidelines developed under the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal, and in accordance with any guidelines that may be adopted by the Conference of the Parties to this Convention. In developing such guidelines, the Conference of the Parties ~~shall~~ **may** take into account arrangements in relevant international agreements, **if applicable. There shall be provision of financial and technical assistance including technology transfer to developing countries in line with the principle of common but differentiated responsibilities assessed through a subsidiary body under this instrument.**

2. Each Party, **as per their national plan and based upon national circumstances and capabilities**, is encouraged to take additional measures which could include, inter alia:

- (a) Promoting investment in, and mobilising resources from all sources for, waste management systems and infrastructure that enables environmentally sound management of plastic waste and enhances waste management capacity;
- (b) Establishing systems at national and local levels for handling, sorting, collection, transportation, storage, recycling and treatment of plastic wastes;
- (c) Encouraging behavioural changes throughout the value chain and raising public awareness about plastic waste prevention and minimization, taking into account the critical roles of all stakeholders in reducing plastic litter and supporting recycling;
- (d) Incentivizing increased recyclability, promoting higher recycling rates, and enhancing the accountability of producers and importers for environmentally sound management of plastics and plastic products throughout their life cycle, including by the adoption and implementation of approaches such as extended producer responsibility (EPR) schemes;
- (e) Promoting, developing and strengthening markets for secondary plastics.

~~3. Each Party shall take measures to ensure that export of plastic waste is only allowed:~~
~~(a) For the purpose of safe and environmentally sound recovery, reuse, recycling, or disposal in a manner consistent with this Article; and~~
~~(b) With the written consent of the importing Party or non-Party.~~

~~4. Where export of plastic waste is allowed under paragraph 3, the exporting Party shall:~~
~~(a) Provide to the importing Party or non-Party complete information about the composition of the waste proposed to be exported, including its contents in polymers,~~

~~chemicals and plastics, and any associated hazards to human health or the environment, including safety data sheets, as relevant;~~

~~(b) Require exporters to comply with generally accepted and recognized international rules, standards and practices for packaging, labelling and transport.~~

~~5. The Conference of the Parties shall, at its first meeting, adopt guidance to assist Parties in their implementation of paragraphs 3 and 4 of this Article, including a format for certification to demonstrate that the importing Party or non-Party has measures in place to ensure consistency with the requirements under subparagraph (b) of paragraph 3. In developing such guidance, the Conference of the Parties shall take into account arrangements in relevant international agreements.]~~
