1. Preamble

Thank you Mr. Co-Chair.

First of all we would like to ask for a clarification? Are we going to start para by para negotiation or we just want to have an approval from all parties on streamlined document on Sub-Contact Group 1?

If we are doing the para by para negotiation, there are 3 points in preamble that we would like to raise.

First, on paragraph 4, we would like to replace national “circumstances and capabilities” with “common but differentiated responsibilities and respective capabilities”.

Second, on paragraph 5, to replace “Small Island Developing States” with “Developing Countries, including Archipelagic States, Small Island Developing States, and Least Developed Countries”.

Last, om paragraph, to replace “national circumstances” with “national capabilities and responsibilities”

Thank you Mr. Co-Chair.
2. Objective

Thank you Mr. Co-Chair

Just two brief interventions.

Indonesia would like to support the proposal made by many other delegations to not having a specific date by 2040, as we do not want to make an objective become a target.

Also we would like to retain the reference to CBDR in the text.

Thank you.

5. Scope

Thank you Mr. chair

As we already stated in the CG1 meeting that during the streamlining process, it is also very important for us to allow adding important elements, to capture the whole essence, since we believe that there are still some of our national priorities that are not perfectly reflected in the draft.

In this regard, on option 3, we would like to add a new bracket on the line 4, after the word “developing countries”, to replace “especially least developed countries” with “including archipelagic states, small islands, developing states, and least developed countries”.

Thank you Mr. Chair.
