Article 6

As previously stated by colleagues during the high-level meeting in Nairobi, and also reiterated today by colleagues representing, among others, a group of countries at the Plenary session, we believe that **Article 6 should not be discussed within the framework of INC 5.2.**

This position is due to **the diversity of opinions on this article, and considering the limited time** available at INC 5.2, with the aim of efficient time management.

Should the discussion take place nonetheless, we maintain our position in favor of **Option 1 - No Text.**
