

**MALAYSIA'S SUBMISSION**  
**Contact Group 2**  
**Article 7: Emission and Release**

Thank you, Co-chairs for giving Malaysia the floor.

Malaysia suggests to use the text in the compilation text in the new draft.

Malaysia proposes to use Option 2, Part II.8 with some amendment and modification.

Lastly, we also have the similar position with Saudi Arabia and other member states which is “what is the difference between this article and Article 8 of waste management.”

Thank you.
