Article 8: Plastic Waste Management

Thank you, Co-chairs for giving Malaysia the floor.

Malaysia proposed that this article should be based on national circumstances and capabilities. As such, Malaysia proposes for the words “shall” to be substituted with the word “is encouraged” in Paragraph (1).

Malaysia believes that this treaty must not duplicate any existing MEA. Thus, Malaysia is proposing to delete Paragraphs (3), (4) and (5) since it has been addressed in the Basel Convention.

Thank you.
