Thank you chair,

First of all, allow me to thank Canada, the host country, the INC Secretariat, and you, the Chair for the commitment as well as the progress made at INC-4.

Malaysia would have loved to see more detailed topics on legacy plastic and means of implementation, as expressed by many other developing countries. However, in the spirit of moving forward, Malaysia supports your proposal on the intersessional work.

Malaysia would like to highlight that the intersessional work must be transparent, neutral, and inclusive. The organisation of work as well as the conduct of the meetings must be clearly stated and most importantly, standardised.

Malaysia looks forward to a consensus-based productive discussion at the Intersessional Work.

Thank you.
