Part II.1 – Primary plastic polymers

**Comment:** Kazakhstan supports the “alternative heading”. Taking into account the Common Position of Kazakhstan uploaded on INC4 website (Plenary), Kazakhstan supports option 1 with some adjustments (to add the phrases “application of the best available technologies in their production”) and to limit it to only one paragraph.

**Part II.2 Plastic polymers**

**Option 1**

1. Parties, [taking into consideration their respective capabilities and national circumstances,]** shall take the necessary measures to prevent and mitigate the potential for adverse impacts on human health [and][or] the environment from the production of primary plastic polymers [and secondary plastics], including their feedstocks and precursors [to manage production and consumption of plastics through product design and environmentally sound waste management, including through resource efficiency and circular economy approaches application of the best available technologies in their production].
