

Proposal of Côte d' Ivoire Article 19

INC-5.2 Proposal of Côte d' Ivoire

CG4 - Article 19 Members of the Committee

Date and time of submission 07/08/2025

Article number Article 19 - Health

Thank you mister cochair for giving me the floor,

My delegation supports the proposal made by Somalia on behalf of the AGN. This is justified by the fact that recent research has highlighted the evident dangers of microplastics on human health. We therefore support a standalone article on health.

Thank you.
