UK proposal for Paragraph 10 – Overarching objective to align financial flows from all sources, public and private, with the objectives of the instrument.

**OP10:** Parties, and bilateral, regional and multilateral entities and the private sector are encouraged to make finance flows consistent with a pathway towards ending plastic pollution, by mobilising, redirecting and aligning financial flows from all sources, domestic and international, public, and private, towards activities that prevent or reduce emissions and releases to the environment of plastics and plastic products across their full life cycle.
