SUBMISSION BY PSIDS ON SUSTAINABLE PRODUCTION (*ARTICLE 6: SUPPLY*)

1. Parties shall promote the sustainable production of primary plastic polymers by achieving a global target of 40 per cent reduction by 2040, compared to 2025 levels.
2. Each Party shall take measures across the lifecycle of plastics to implement the global target for the sustainable production of primary plastic polymers and annually report statistical and other relevant data on its progress and implementation.
3. The Conference of the Party shall, at its first session, adopt the format and methodologies for establishing baselines and submitting annual reports on the production of primary plastic polymers, including types, quantities and use of polymers produced, imported, exported and recycled.
4. The Conference of the Parties shall, every five years, assess Parties' progress toward achieving the global target for the sustainable production of primary plastic polymers, and update the global target as necessary.
5. Parties shall cooperate to ensure that developing country Parties have adequate means of implementation to meet their commitments under this Article and across the lifecycle of plastics to achieve the global target in paragraph 1.
