Thailand Reflections on the Part II.

Problematic and avoidable plastic products including short-lived and single-use plastic products and products containing intentionally added microplastics

26 April 2024

Part II

3. Problematic and avoidable plastic products including short-lived and single-use plastic products and products containing intentionally added microplastics

Firstly, Thailand supports the option 1 as a basis of discussion.

Secondly, we also support in taking into account both UK and Switzerland and their co-sponsors’ proposals in the discussion of this provision. We support the UK’s proposal which proposes two degrees of control measures and the two proposed criterion of both proposals of UK and Switzerland with their co-sponsors including the Switzerland’s proposed initial list because we believe that they complement each other.

Lastly, we strongly oppose the option 0.
