<i>Article number</i>	15
<i>Explanatory notes outlining how this submission supports the bridging of positions on the issue at hand</i>	<p>Trinidad and Tobago would like to align itself with the proposal made by Palau on behalf of AOSIS. Further to this we would reiterate our support mandatory reporting and having it publicly available as is done with other Multilateral Environmental Agreements (MEAs). We wish to emphasize that similar to National Action Plans adequate and available Means of Implementation will be imperative for Reporting across the full lifecycle of plastics relevant to this convention; and so this support should be explicitly referenced within this provision. We would also like to highlight that reporting systems should be informed by lessons learned from existing MEAs for example the reporting issues experienced within the Stockholm Convention.</p>

Tobago Intervention at INC 5.2, Contact Group 4 on Article 15 – Reporting
