

ARTICLE 13 IMPLEMENTATION AND COMPLIANCE

1. In paragraph 1, a mechanism is envisaged that is not explained in the following paragraphs. In other words, although the roles and responsibilities of the Compliance and Implementation Committee are elaborated upon in paragraphs 2, 3, and 4, the structure of the mechanism remains unclear.

3. In paragraph 3, we propose replacing the phrase “with three members from the five regional groups of the United Nations” with 'with due consideration to equitable geographical representation based on the five regions of the United Nations,'

4. The committee should be facilitative in nature, non-adversarial and non-punitive. Therefore we propose to add at the end of para 2 the following sentence: “The Committee shall function in a manner that is non-adversarial and non-punitive, and shall pay particular attention to the respective national capacities of the parties.”
