1. Each Party shall take measures to reduce the use of plastic products through, as relevant, increasing the reuse, refill, repair, repurposing and refurbishment of those products available on its market, in particular through the implementation of reuse, refill and repair systems.

2. The Governing Body, at its first meeting, shall develop global reuse and refill targets for specified sectors and subsectors and settings for inclusion in part II of annex C. Each Party shall set national targets to achieve the global reuse and refill targets for the sectors and subsectors and settings contained in part II of annex C within the timeframe identified in that annex.

3. Each Party shall take the necessary measures to meet their national targets as set under paragraph 2, which may include regulatory and economic instruments, public procurement, extended producer responsibility schemes, as set out in part VII or measures to incentivize changes in the supply chain and in consumer behaviour.

4. The Governing Body, at its first session, shall adopt minimum standards for reuse systems, for the sectors and subsectors contained in part II of annex C, taking into account the special circumstances of small island developing states. Each Party shall take the necessary measures to ensure reuse systems operating in their territory meet the relevant standards.

5. The Governing Body shall adopt guidance, including methodologies, to assist Parties in the implementation of paragraphs 2 and 3.
