

United Kingdom proposal on health

Article 19

Health

1. Parties are encouraged to promote the development and implementation of science-based research, educational and preventive programmes for understanding, assessing and minimising health risks associated with plastic pollution, including microplastics, taking a One Health approach as appropriate.
2. The Conference of the Parties, in considering health-related issues or activities, should:
 - (a) Consult and collaborate with the World Health Organization, other relevant intergovernmental organizations, as appropriate; and
 - (b) Promote cooperation and exchange of information with the World Health Organization, and other relevant intergovernmental organizations, as appropriate.
