Contact Group III
Definitions

Brazil requests that the following position on definitions is registered in the final report of INC-3:

“Brazil thanks the Secretariat for preparing the Synthesis Report, contained in document UNEP/PP/INC.3/INF/1. As the Report was only recently made available to INC Members, Brazil needs to reserve its position on the definitions contained in said document, as they are still being discussed internally in Brazil.

Brazil also understands that work on the issue should focus on the definitions which are effectively needed by Parties to implement the instrument.”
