Proposed response template on written submissions prior to INC-3 (part a)

At its second session, the intergovernmental negotiating committee (INC) requested the secretariat to invite written submissions on:

- Elements not discussed at INC-2, such as principles and scope of the instrument

INC-2 further requested the secretariat to post any submissions received on the INC website and to prepare a synthesis report of the submissions.

The template below was prepared by the secretariat, in consultation with the Chair, and is meant as a guide to assist Members and Observers in preparing their written submissions.

A number of documents prepared by the secretariat for INC-1 and INC-2 are of relevance to this submission, including:

**UNEA resolution 5/14** on ‘End plastic pollution: towards an international legally binding instrument’

**UNEP/PP/INC.1/5** on ‘Potential elements, based on provisions in paragraphs 3 and 4 of United Nations Environment Assembly resolution 5/14, including key concepts, procedures and mechanisms of legally binding multilateral agreements that may be relevant to furthering implementation and compliance under the future international legally binding instrument on plastic pollution, including in the marine environment’

**UNEP/PP/INC.1/6** on ‘Glossary of key terms’

**UNEP/PP/INC.1/8** on ‘Description of standard articles on final provisions that are typically included in multilateral environmental agreements’

**UNEP/PP/INC.2/4** on ‘Potential options for elements towards an international legally binding instrument, based on a comprehensive approach that addresses the full life cycle of plastics as called for by United Nations Environment Assembly resolution 5/14’

**UNEP/PP/INC.2/INF/4** on ‘Additional information linked to the options for the potential elements towards an international legally binding instrument’

**UNEP/PP/INC.2/INF/7/REV.1** on ‘Information submitted by the Secretariat of the Basel, Rotterdam and Stockholm conventions’

All written submissions must be sent to unep-incplastic.secretariat@un.org. As detailed in the mandate, the submissions received will be made available on the INC webpage, a synthesis report of the submissions will also be developed in advance of INC-3.

Please note that not all fields in the template need to be answered in the submission.

**Deadline for submissions:**

I. By **15 August 2023** for written submissions from **observer** organizations.

II. By **15 September 2023** for written submissions from **Members** of the Committee.
Elements not discussed at INC-2

1. Scope

What is the proposed scope for the future instrument?

Which types of substances, materials, products and behaviors should be covered by the future instrument?

Proposed scope:

The legally binding instrument covers plastic pollution, including in the marine environment.

Explanatory Text:

As mentioned in the definition, ‘plastic pollution’ is caused by plastic waste not properly managed (collected, recycled, and treated) entering the environment. In other words, the goal of this instrument is not to eliminate plastic as a substance or material but to create conditions worldwide where uncontrolled plastic waste is not released into the environment.

Therefore, a life-cycle approach to plastic waste and the establishment of a system to prevent the release of unmanaged plastic waste into the environment will be effective in ending plastic pollution. On the other hand, the establishment of such a lifecycle waste management system should take into account the circumstances of each country. We believe that measures focused on country-specific action plans will be effective.

2. Principles

What principles could be set out in the future instrument to guide its implementation?

Proposed principles:

Clarification of the roles of each entity and player
Clarifying the respective roles of government, industry and consumers will enhance effectiveness.

3. **Additional considerations**

*Provide any other relevant inputs, proposals or priorities here that have not been discussed at INC-2 (e.g. preamble; institutional arrangements, including governing body, subsidiary bodies, scientific and technical cooperation and coordination, and secretariat; final provisions including dispute settlements; and if appropriate annexes).*
