Egypt’s Submission on Part 2.7 of Zero draft on Extended producer responsibility

Egypt is in favor of option 2 with minor amendments, which reads as follows:

1. Each Party, according to its specific conditions, is encouraged to establish and operate Extended Producer Responsibility (EPR) systems, including, where relevant, on a sectoral basis, to incentivize increased recyclability, promote higher recycling rates, and enhance the accountability of producers and importers for safe and environmentally sound management of plastics and plastic products throughout their life cycle and across international supply chains.

2. The governing body shall, at its first session, adopt implementable modalities to inform the establishment of national EPR systems and define their essential features, and to support their harmonization, taking into account the objective of ensuring just transition.
