Part II
Section 7
Extended Producer Responsibility
India

Alternative text

1. Each Party is encouraged to establish and operate national Extended Producer Responsibility (EPR) systems, as per their national plans and based upon national circumstances and capabilities, including, where relevant, to increase recyclability, promote higher recycling rates, and enhance the accountability of producers and importers for safe and environmentally sound management.

2. The *governing body* shall, at its first session, develop guidance for design and implementation of national EPR systems, taking into account the objective of ensuring a just transition.
