Thailand’s views on the Mean of implementation (Financial mechanism) at the third session of Intergovernmental Negotiating Committee to develop an international legally binding instrument on Plastic Pollution, including in the marine environment (INC-3) 14 November 2023, UNEP Headquarters in Nairobi, Kenya

Thank you very much (Mr.) Co-facilitator for giving me the floor.

Thailand would like to propose the establishment of the Open-Ended Working Group to develop intersessionally on the Means of Implementation and implementation of the future instrument. Its works would be included, but not limited to, proposing potential scope, resources mobilization, especially financial mechanism and innovative financing. The OEWG should evaluate the pros and cons of existing financial mechanism and its effectiveness comparing to having a new dedicated mechanism for the consideration by the Committee.

I thank you Mr. Co-facilitator.
